LOW BATTERY AND CHARGING INDICATOR

- Low battery
 - * Steady Blue
- Auto safe
 - * Flashing Blue
- Charging indicator
 - * Flashing Blue - charging
 - * Steady Blue - charged

AUTO SAFE MODE

To preserve battery when power is low, the light will enter safe mode with less light output for extra 1 hour. Safe mode cannot be override. Recharge battery for maximum performance.

BATTERY CHARGING AND CARE

1. Turn off the light,
2. Lift the rubber cover,
3. Plug the USB cable into charging port,
4. Plug the USB cable to wall or computer USB socket,
5. Charging indicator will be on. Unplug the cable after fully charged,

BATTERY CARE

- * Do not charge over 5V, the battery will result in damage.
- * Keep away from flammable objects while charging as this may lead to fire or battery explosion.
- * Battery may get high temperatures during charging (up to 104°F/40°C).
- * After 300 charge/discharge, the battery capacity may drop to around 80%.
- * The battery voltage and capacity decrease apparently at low temperatures, especially near or below ice point. The capacity decreases 5%-10% at freezing (burn time decreases 50%). At -20°C, the capacity decreases 30% (burn time decreases 70%). The battery performance will return normal when the temperature gets up to 70°F/20°C.
- * Keep the battery in cool and dry place when storing. Recharge the battery fully at least every 3 months.

WARNING

- * Understand country lighting laws and regulations before use.
- * Do not shine directly in the eyes.
- * Light may get hot when in use.
- * Adjust the angle downward to prevent from blinding the oncoming vehicles on the public roads.
- * Do not submerge the battery or the whole light into water.
- * Unplug the light, charger and cable once the battery is fully charged.
- * Do not dismantle the light which will void warranty.
- * Do not leave the light on and unattended.
- * Keep the light away from fire and combustible materials.
- * Do not store head unit when hot or straightway after use.

WARRANTY

MOON Lights are covered by a ONE YEAR LIMITED WARRANTY from the date of purchase is free from defects in material and workmanship. This warranty does not apply to damage due to heat, physical damage resulting from abuse, neglect, improper repair, improper fit, or alterations of the fixture. This covers the lights and cables only. Batteries are covered by 120 days warranty not including battery normal wear.

All customers should contact the local dealer or regional distributor for warranty service. To make a claim, first contact original dealer or distributor. Some issues may be resolved upon the initial call. If return of the product is necessary, use traceable method such as FedEx or UPS. MOON is not responsible for lost or misdirected packages.

Please include your full contact information (name, address, phone number, and email [if applicable]), and a description of the issue.
