Charged indicator * 3:00hrs		

## OVERHEAT PROTECTION

The overheat protection device can ensure the bicycle light in a good running temperature condition, so that to protect the LEDs without burning case. If the light is in high temperature during operation, it will dim the light output.

## WARNING

Understand country lighting laws and regulations before use.  
Do not shine light directly into eyes.  
Do not mount near wireless computer.  
Do not blind the oncoming vehicles. Always adjust the angle downward.  
Do not submerge the light into water.  
Keep light in cool and dry place when storing.  
Fully recharge the light at least every 3 months during storage.

## WARRANTY

MOON Lights are covered by a **2-year LIMITED WARRANTY**, while MOON batteries are covered by a **180-day** warranty, both starting from the date of purchase.

This warranty covers defects or malfunctions arising from manufacturing or design flaws in the product. It does not cover normal wear and tear, non-rechargeable batteries, and damage caused by improper installation, misuse, mishandling, accidental loss, abuse, accidents, or negligence.

MOON may require the return of any product submitted for warranty consideration. Customers should contact their authorized local dealer or authorized regional distributor for warranty service.
